WELCOME BACK

August 29, 2022

Dear Parents / Guardians

I would like to take this time to welcome you and your child to Junior High Science and Mathematics. My name is Spencer Hayes and this will be my third year teaching at Caledonia Park School. Overall, this will be my seventh year teaching. Over the years I have also spent three years in Niton Junction and one in Spruce Grove teaching. Outside of school, I spend my free time with my wife Brookly, my 3 month old daughter Frankie, and our two cats Oliver and Nacho. I also enjoy reffing hockey as well as coaching a variety of different sports.

Mathematics is a subject learnt in school that often provides crucial skills to help with situations in our everyday lives. I know that every student is different and I always try to approach teaching math by helping students understand there are multiple ways to solve a problem, they just have to find the one that works best for them.

Science is a course that can help students' critical thinking skills. I love science because it is fascinating to be able to learn how the world around them works. Science also offers an opportunity for students to witness and take part in a variety of demos and experiments where they can see a concept in action first hand and provide a reasoning for what is occurring.

I am truly excited to work with parents and students in math, science and phys. ed this year. If a student is ever struggling with a subject or if they need some extra help, my door is always open and I will always do whatever I can to help my students succeed. I look forward to watching the students grow as learners and as people as well.

If you have any questions or concerns at any time throughout the year please do not hesitate to contact me at spencer.hayes@gshare.blackgold.ca, or by telephone at the school: 780-986-7888.

Sincerely,

Spencer Hayes
