## WELCOME BACK!

August 28, 2023

Welcome to the 2023-2024 school year at Caledonia Park School! My name is Erin McClean and I have spent most of my career teaching at Caledonia Park School within the Blackgold School Division. This summer, I spent a lot of time reading books, camping with my family, travelling to BC, boating, and watching my kids develop their skill set doing the activities that they love!

I look forward to meeting all of you in the future. It is so important to build a strong school and home team to help support students and foster success. If you have any questions or concerns at any time throughout the year, please do not hesitate to contact me at [erin.mcclean@blackgold.ca](mailto:erin.mcclean@blackgold.ca) or [erin.mcclean@gshare.blackgold.ca](mailto:erin.mcclean@gshare.blackgold.ca), or by telephone at the school: 780-986-7888.

Mathematics is an important subject as most often we deal with some form of mathematics in our every day lives. Mathematics also helps teach students how to approach and solve problems in everyday life. I believe that mathematics is best learned through multiple ways of instruction. I use manipulatives, diagrams, and booklets to help students learn the concepts in the course. I encourage collaboration to help gain understanding of concepts, but I also believe that individual work is needed to ensure retention of that concept. Mathematics builds on itself as each year goes on and I believe that a good foundation helps set the stage for future successes in progressive classes. I understand that sometimes math can be difficult, and I am always available for extra help. It is important for students to come into class with an open mind and a positive attitude.

I am truly excited to work with parents and students in mathematics this year. I look forward to watching the students grow as learners and as people as well.

Sincerely,

Erin McClean
